PART II
HUMAN SERVICES

{+ NEW SECTION. +} Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose, except as expressly provided in subsection (3) of this section.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) In the event the department receives additional unrestricted federal funds or achieves savings in excess of that anticipated in this act, the department shall use up to \$5,000,000 of such funds to initiate a pilot project providing integrated support services to homeless individuals needing mental health services, alcohol or substance abuse treatment, medical care, or who demonstrate community safety concerns. Before such a pilot project is initiated, the department shall notify the fiscal committees of the legislature of the plans for such a pilot project including the source of funds to be used.

State Appropriation.	\$ 987,000
Violence Reduction and Drug Enforcement Account--	
State Appropriation.	\$ 5,702,000
TOTAL APPROPRIATION	\$ 844,299,000

The appropriations in this section are subject to the following

conditions and limitations:

(1) \$2,237,000 of the fiscal year 2002 general fund--state appropriation, \$2,288,000 of the fiscal year 2003 general fund--state appropriation, and \$1,590,000 of the general fund--federal appropriation are provided solely for the category of services titled "intensive family preservation services."

(2) \$685,000 of the general fund--state fiscal year 2002 appropriation and \$701,000 of the general fund--state fiscal year 2003 appropriation are provided to contract for the operation of one pediatric interim care facility. The facility shall provide residential care for up to thirteen children through two years of age. Seventy-five percent of the children served by the facility must be in need of special care as a result of substance abuse by their mothers. The facility shall also provide on-site training to biological, adoptive, or foster parents. The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. The facility may recruit new and current foster and adoptive parents for infants served by the facility. The department shall not require case management as a condition of the contract.

(3) \$524,000 of the general fund--state fiscal year 2002 appropriation and \$536,000 of the general fund--state fiscal year 2003 appropriation are provided for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-abuse-affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

(4) \$1,260,000 of the fiscal year 2002 general fund--state appropriation, \$1,248,000 of the fiscal year 2003 general fund--state appropriation, and \$4,196,000 of the violence reduction and drug enforcement account appropriation are provided solely for the family policy council and community public health and safety networks. The funding level for the family policy council and community public health and safety networks represents a 25 percent reduction below the funding level for the 1999-2001 biennium. Funding levels shall be reduced 25 percent for both the family policy council and network grants. Reductions to network grants shall be allocated so as to maintain current funding levels, to the greatest extent possible, for projects with the strongest evidence of positive outcomes and for networks with substantial compliance with contracts for network grants.

(5) \$2,215,000 of the fiscal year 2002 general fund--state appropriation, \$4,394,000 of the fiscal year 2003 general fund--state appropriation, and \$5,604,000 of the general fund--federal appropriation are provided solely for reducing the average caseload level per case-carrying social worker. Average caseload reductions are intended to increase the amount of time social workers spend in direct contact with the children, families, and foster parents involved with their open cases. The department shall use some of the funds provided in several local offices to increase staff that support case-carrying social workers in ways that will allow social workers to increase direct contact time with children, families, and foster parents. To achieve the goal of reaching an average caseload ratio of 1:24 by the end of fiscal year 2003, the department shall develop a plan for

redeploying 30 FTEs to case-carrying social worker and support positions from other areas in the children and family services budget. The FTE redeployment plan shall be submitted to the fiscal committees of the legislature by December 1, 2001.

(6) \$1,000,000 of the fiscal year 2002 general fund--state appropriation and \$1,000,000 of the fiscal year 2003 general fund--state appropriation are provided solely for increasing foster parent respite care services that improve the retention of foster parents and increase the stability of foster placements. The department shall report quarterly to the appropriate committees of the legislature progress against appropriate baseline measures for foster parent retention and stability of foster placements.

(7) \$1,050,000 of the general fund--federal appropriation is provided solely for increasing kinship care placements for children who otherwise would likely be placed in foster care. These funds shall be used for extraordinary costs incurred by relatives at the time of placement, or for extraordinary costs incurred by relatives after placement if such costs would likely cause a disruption in the kinship care placement. \$50,000 of the funds provided shall be contracted to the Washington institute for public policy to conduct a study of kinship care placements. The study shall examine the prevalence and needs of families who are raising related children and shall compare services and policies of Washington state with other states that have a higher rate of kinship care placements in lieu of foster care placements. The study shall identify possible changes in services and policies that are likely to increase appropriate kinship care placements.

(8) \$3,386,000 of the fiscal year 2002 general fund--state appropriation, \$7,671,000 of the fiscal year 2003 general fund--state appropriation, and \$20,819,000 of the general fund--federal appropriation are provided solely for increases in the cost per case for foster care and adoption support. \$16,000,000 of the general fund--federal amount shall remain unallotted until the office of financial management approves a plan submitted by the department to achieve a higher rate of federal earnings in the foster care program. That plan shall also be submitted to the fiscal committees of the legislature and shall indicate projected federal revenue compared to actual fiscal year 2001 levels. Within the amounts provided for foster care, the department shall increase the basic rate for foster care to an average of \$420 per month on July 1, 2001, and to an average of \$440 per month on July 1, 2002. The department shall use the remaining funds provided in this subsection to pay for increases in the cost per case for foster care and adoption support. The department shall seek to control rate increases and reimbursement decisions for foster care and adoption support cases such that the cost per case for family foster care, group care, receiving homes, and adoption support does not exceed the amount assumed in the projected caseload expenditures plus the amounts provided in this subsection.

(9) \$1,767,000 of the general fund--state appropriation for fiscal year 2002, \$2,461,000 of the general fund--state appropriation for fiscal year 2003, and \$1,485,000 of the general fund--federal appropriation are provided solely for rate and capacity increases for child placing agencies. Child placing agencies shall increase their capacity by 15 percent in fiscal year 2002 and 30 percent in fiscal year 2003.

(10) The department shall provide secure crisis residential facilities across the state in a manner that: (a) Retains geographic

provision of these services; and (b) retains beds in high use areas.

(11) \$125,000 of the general fund--state appropriation for fiscal year 2002 and \$125,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for a foster parent retention program. This program is directed at foster parents caring for children who act out sexually, as described in House Bill No. 1525 (foster parent retention program).

Health Services Account--State	
Appropriation.	\$ 2,450,000
TOTAL APPROPRIATION	\$ 731,863,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Regional support networks shall use portions of the general fund--state appropriation for implementation of working agreements with the vocational rehabilitation program which will maximize the use of federal funding for vocational programs.

(b) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and adult services program for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(c) \$388,000 of the general fund--state appropriation for fiscal year 2002, \$1,927,000 of the general fund--state appropriation for fiscal year 2003, and \$2,349,000 of the general fund--federal appropriation are provided solely for development and operation of community residential and support services for persons whose treatment needs constitute substantial barriers to community placement and who no longer require active psychiatric treatment at an inpatient hospital level of care, no longer meet the criteria for inpatient involuntary commitment, and who are clinically ready for discharge from a state psychiatric hospital. In the event that enough patients are not

transitioned or diverted from the state hospitals to close at least two hospital wards by July 2002, and two additional wards by April 2003, a proportional share of these funds shall be transferred to the appropriations in subsection (2) of this section to support continued care of the patients in the state hospitals. Primary responsibility and accountability for provision of appropriate community support for persons placed with these funds shall reside with the mental health program and the regional support networks, with partnership and active support from the alcohol and substance abuse and from the aging and adult services programs. The department shall negotiate performance-based incentive contracts with those regional support networks which have the most viable plans for providing appropriate community support services for significant numbers of persons from their area who would otherwise be served in the state hospitals. The funds appropriated in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13)(a).

(d) At least \$1,000,000 of the federal block grant funding appropriated in this subsection shall be used for (i) initial development, training, and operation of the community support teams which will work with long-term state hospital residents prior and subsequent to their return to the community; and (ii) development of support strategies which will reduce the unnecessary and excessive use of state and local hospitals for short-term crisis stabilization services. Such strategies may include training and technical assistance to community long-term care and substance abuse providers; the development of diversion beds and stabilization support teams; examination of state hospital policies regarding admissions; and the development of new contractual standards to assure that the statutory requirement that 85 percent of short-term detentions be managed locally is being fulfilled. The department shall report to the fiscal and policy committees of the legislature on the results of these efforts by November 1, 2001, and again by November 1, 2002.

(e) The department is authorized to implement a new formula for allocating available resources among the regional support networks. The distribution formula shall use the number of persons eligible for the state medical programs funded under chapter 74.09 RCW as the measure of the requirement for the number of acutely mentally ill, chronically mentally ill, severely emotionally disturbed children, and seriously disturbed in accordance with RCW 71.24.035(13)(a). The new formula shall be phased in over a period of no less than six years. Furthermore, the department shall increase the medicaid capitation rates which a regional support network would otherwise receive under the formula by an amount sufficient to assure that total funding

allocated to the regional support network in fiscal year 2002 increases by up to 2.1 percent over the amount actually paid to that regional support network in fiscal year 2001, and by up to an additional 2.3 percent in fiscal year 2003, if total funding to the regional support network would otherwise increase by less than those percentages under the new formula, and provided that the nonfederal share of the higher medicaid payment rate is provided by the regional support network from local funds.

(f) Within funds appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school

setting for severely emotionally disturbed children who are medicaid eligible. Project services are to be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the department with (i) periodic reports on project service levels, methods, and outcomes; and (ii) an intergovernmental transfer equal to the state share of the increased medicaid payment provided for operation of this project.

(g) The health services account appropriation is provided solely for implementation of strategies which the department and the affected regional support networks conclude will best assure continued availability of community-based inpatient psychiatric services in all areas of the state. Such strategies may include, but are not limited to, emergency contracts for continued operation of inpatient facilities otherwise at risk of closure because of demonstrated uncompensated care; start-up grants for development of evaluation and treatment facilities; and increases in the rate paid for inpatient psychiatric services for medically indigent and/or general assistance for the unemployed patients. The funds provided in this subsection must be: (i) Prioritized for use in those areas of the state which are at greatest risk of lacking sufficient inpatient psychiatric treatment capacity, rather than being distributed on a formula basis; (ii) prioritized for use by those hospitals which do not receive low-income disproportionate share hospital payments as of the date of application for funding; and (iii) matched on a one-quarter local, three-quarters state basis by funding from the regional support network or networks in the area in which the funds are expended. Payments from the amount provided in this subsection shall not be made to any provider that has not agreed that, except for prospective rate increases, the payment shall offset, on a dollar-for-dollar basis, any liability that may be established against, or any settlement that may be agreed to by the state, regarding the rate of state reimbursement for inpatient psychiatric care. The funds provided in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are not subject to the distribution formula established pursuant to RCW 71.24.035.

(1) COMMUNITY SERVICES

General Fund--State Appropriation (FY 2002).	231,693,000
General Fund--State Appropriation (FY 2003).	242,347,000
General Fund--Federal Appropriation.	396,151,000
Health Services Account--State	
Appropriation.	741,000
TOTAL APPROPRIATION	870,932,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) The health services account appropriation and \$753,000 of the general fund--federal appropriation are provided solely for health care benefits for home care workers with family incomes below 200 percent of the federal poverty level who are employed through state contracts for twenty hours per week or more. Premium payments for individual provider home care workers shall be made only to the subsidized basic health plan. Home care agencies may obtain coverage either through the basic health plan or through an alternative plan with substantially equivalent benefits.

(b) \$902,000 of the general fund--state appropriation for fiscal year 2002, \$3,372,000 of the general fund--state appropriation for fiscal year 2003, and \$4,056,000 of the general fund--federal appropriation are provided solely for community services for residents of residential habilitation centers (RHCs) who are able to be adequately cared for in community settings and who choose to live in those community settings. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$280. If the number and timing of residents choosing to move into community settings is not sufficient to achieve the RHC cottage consolidation plan assumed in the appropriations in subsection (2) of this section, the department shall transfer sufficient appropriations from this subsection to subsection (2) of this section to cover the added costs incurred in the RHCs. The department shall report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of residents moving into community settings and the actual expenditures for all community services to support those residents.

(c) \$1,440,000 of the general fund--state appropriation for fiscal year 2002, \$3,041,000 of the general fund--state appropriation for fiscal year 2003, and \$4,311,000 of the general fund--federal appropriation are provided solely for expanded community services for persons with developmental disabilities who also have community protection issues or are diverted or discharged from state psychiatric hospitals. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$275. The department shall report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

(d) \$1,005,000 of the general fund--state appropriation for fiscal year 2002, \$2,262,000 of the general fund--state appropriation for fiscal year 2003, and \$2,588,000 of the general fund--federal appropriation are provided solely for increasing case/resource management resources to improve oversight and quality of care for persons enrolled in the medicaid home and community services waiver for persons with developmental disabilities. The department shall not increase total enrollment in home and community based waivers for persons with developmental disabilities except for increases assumed in additional funding provided in subsections (b) and (c) of this section. Prior to submitting to the health care financing authority any additional home and community based waiver request for persons with developmental disabilities, the department shall submit a summary of

the waiver request to the appropriate committees of the legislature. The summary shall include eligibility criteria, program description, enrollment projections and limits, and budget and cost effectiveness projections that distinguish the requested waiver from other existing or proposed waivers.

(e) \$1,000,000 of the general fund--state appropriation for fiscal year 2002 and \$1,000,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for employment, or other day activities and training programs, for young adults with developmental disabilities who complete their high school curriculum in 2001 or 2002. These services are intended to assist with the transition to work and more independent living. Funding shall be used to the greatest extent possible for vocational rehabilitation services matched with federal funding. In recent years, the state general fund appropriation for employment and day programs has been underspent. These surpluses, built into the carry forward level budget, shall be redeployed for high school transition services.

(f) \$369,000 of the fiscal year 2002 general fund--state appropriation and \$369,000 of the fiscal year 2003 general fund--state appropriation are provided solely for continuation of the autism pilot project started in 1999.

These funds, along with funding provided for vendor rate increases, are sufficient to raise wages an average of fifty cents and cover the employer share of unemployment and social security taxes on the amount of the wage increase. In consultation with the statewide associations representing such agencies, the department shall establish a mechanism for testing the extent to which funds have been used for this purpose, and report the results to the fiscal committees of the legislature by February 1, 2002.

(7) Within funds appropriated in this section and in section 204 of this act, the aging and adult services program shall devise and implement strategies in partnership with the mental health program and the regional support networks to reduce the use of state and local psychiatric hospitals for the short-term stabilization of persons with dementia and traumatic brain injuries. Such strategies may include training and technical assistance to help long-term care providers avoid and manage behaviors which might otherwise result in psychiatric hospitalizations; monitoring long-term care facilities to assure residents are receiving appropriate mental health care and are not being inappropriately medicated or hospitalized; the development of diversion beds and stabilization support teams; and the establishment of systems to track the use of psychiatric hospitals by long-term care providers. The aging and adult services program shall report to the health care and fiscal committees of the legislature by November 1, 2001, and by November 1, 2002, on the actions it has taken to achieve this objective.

(8) In accordance with Substitute House Bill No. 1341, the department may implement two medicaid waiver programs for persons who do not qualify for such services as categorically needy, subject to federal approval and the following conditions and limitations:

Enrollment in the waiver covering community residential services shall not exceed 500 persons by the end of fiscal year 2002, nor 900 persons by the end of fiscal year 2003.

(b) For each month of waiver service delivered to a person who was not covered by medicaid prior to their enrollment in the waiver, the aging and adult services program shall transfer to the medical assistance program state and federal funds equal to the monthly per capita expenditure amount, net of drug rebates, estimated for medically needy-aged persons in the most recent forecast of medical assistance expenditures.

(c) The department shall identify the number of medically needy

nursing home residents, and enrollment and expenditures on each of the two medically needy waivers, on monthly management reports.

(d) The department shall track and report to health care and fiscal committees of the legislature by November 15, 2002, on the types of long-term care support a sample of waiver participants were receiving prior to their enrollment in the waiver, how those services were being paid for, and an assessment of their adequacy.

(11) From funds appropriated in this section, the department shall increase compensation for individual and for agency home care providers. Payments to individual home care providers are to be increased from \$7.18 per hour to \$7.68 per hour on July 1, 2001. Payments to agency providers are to be increased to \$13.30 per hour on July 1, 2001, and to \$13.44 per hour on July 1, 2002. All but 18 cents per hour of the July 1, 2001, increase to agency providers is to be used to increase wages for direct care workers. The appropriations in this section also include the funds needed for the employer share of unemployment and social security taxes on the amount of the wage increase required by this subsection.

(12) \$2,507,000 of the general fund--state appropriation for fiscal year 2002, \$2,595,000 of the general fund--state appropriation for fiscal year 2003, and \$5,100,000 of the general fund--federal appropriation are provided solely for prospective rate increases intended to increase compensation by an average of fifty cents per hour for low-wage workers in agencies which contract with the state to provide community residential services for persons with functional disabilities. In consultation with the statewide associations representing such agencies, the department shall establish a mechanism for testing the extent to which funds have been used for this purpose, and report the results to the fiscal committees of the legislature by February 1, 2002. The amounts in this subsection also include the funds needed for the employer share of unemployment and social security taxes on the amount of the wage increase.

which contract with the state. For fiscal year 2002, the department shall add forty-five cents per patient day to the direct care rate which would otherwise be paid to each nursing facility in accordance with chapter 74.46 RCW. For fiscal year 2003, the department shall increase the median price per case-mix unit for each of the applicable peer groups by six-tenths of one percent in order to distribute the available funds. In consultation with the statewide associations representing nursing facilities, the department shall establish a mechanism for testing the extent to which funds have been used for this purpose, and report the results to the fiscal committees of the legislature by February 1, 2002.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$282,081,000 of the general fund--state appropriation for fiscal year 2002, \$278,277,000 of the general fund--state appropriation for fiscal year 2003, \$1,254,197,000 of the general fund--federal appropriation, and \$29,352,000 of the general fund--local appropriation are provided solely for the WorkFirst program and child support operations. An increased attention to job retention and wage progression is necessary to emphasize the legislature's goal that the WorkFirst program succeed in helping recipients gain long-term economic independence and not cycle on and off public assistance. The wage progression measure shall report the median percentage increase in quarterly earnings and hourly wage after 12 months, 24 months, and 36 months. The wage progression report shall also report the percent with earnings above one hundred percent and two hundred percent of the federal poverty level. The report shall compare former WorkFirst participants with similar workers who did not participate in WorkFirst. The department shall also report the percentage of families who have returned to temporary assistance for needy families after 12 months, 24 months, and 36 months.

(b) Develop informational materials that educate families about the difference between cash assistance and work support benefits. These materials must explain, among other facts, that the benefits are designed to support their employment, that there are no time limits on the receipt of work support benefits, and that immigration or residency status will not be affected by the receipt of benefits. These materials shall be posted in all community service offices and

distributed to families. Materials must be available in multiple languages. When a family leaves the temporary assistance for needy families program, receives cash diversion assistance, or withdraws a temporary assistance for needy families application, the department of social and health services shall educate them about the difference between cash assistance and work support benefits and offer them the opportunity to begin or to continue receiving work support benefits, so long as they are eligible. The department shall provide this information through in-person interviews, over the telephone, and/or through the mail. Work support benefits include food stamps, medicaid for all family members, medicaid or state children's health insurance program for children, and child care assistance. The department shall report annually to the legislature the number of families who have had exit interviews, been reached successfully by phone, and been sent mail. The report shall also include the percentage of families who elect to continue each of the benefits and the percentage found ineligible by each substantive reason code. A substantive reason code shall not be "other." The report shall identify barriers to informing families about work support benefits and describe existing and future actions to overcome such barriers.

(c) From the amounts provided in this subsection, provide \$50,000 from the general fund--state appropriation for fiscal year 2002 and \$50,000 from the general fund--state appropriation for fiscal year 2003 to the Washington institute for public policy for continuation of the WorkFirst evaluation database.

(d) Submit a report by December 1, 2001, to the fiscal committees of the legislature containing a spending plan for the WorkFirst program. The plan shall identify how spending levels in the 2001-2003 biennium will be adjusted by June 30, 2003, to be sustainable within available federal grant levels and the carryforward level of state funds.

(2) \$48,341,000 of the general fund--state appropriation for fiscal year 2002 and \$48,341,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for cash assistance and other services to recipients in the general assistance--unemployable program. Within these amounts, the department may expend funds for services that assist recipients to reduce their dependence on public assistance, provided that expenditures for these services and cash assistance do not exceed the funds provided.

(3) \$5,632,000 of the general fund--state appropriation for fiscal year 2002 and \$5,632,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for the food assistance program for legal immigrants. The level of benefits shall be equivalent to the benefits provided by the federal food stamp program.

(4) \$48,000 of the general fund--state appropriation for fiscal year 2002 is provided solely to implement chapter 111, Laws of 2001 (veterans/Philippines).

(5) The department shall apply the provisions of RCW 74.04.005(10) to simplify resource eligibility policy, make such policy consistent with other federal public assistance programs, and achieve the budgetary savings assumed in this section.

(c) The department shall establish more restrictive eligibility standards than specified in this subsection to the extent necessary to operate the program within appropriated funds;

The department shall additionally survey the prior and current employment status and approximate hours worked of program enrollees, and report the results to the fiscal and health care committees of the legislature by January 15, 2003.

(a) The payments shall be conditioned upon a contractual commitment by the participating public hospital districts to make an intergovernmental transfer to the health services account equal to at least 91 percent of the additional payments. At least 28 percent of the amounts retained by the participating hospital districts shall be allocated to the state's teaching hospitals.

(b) An additional 4.5 percent of the additional payments may be retained by the participating public hospital districts contingent upon the receipt of \$446,500,000 in newly identified proshare reimbursement from the federal government over the 2001-03 biennium. If the actual

amount received is less than \$446,500,000, the amount retained pursuant to this subsection (12)(b) shall be prorated accordingly. The state teaching hospitals shall receive a distribution of the amount retained by the participating hospital districts in this subsection (12)(b) as allocated in (a) of this subsection.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. (b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include three learning improvement days originally added in the 1999-00 school year. A school district is eligible for the learning improvement day funds for school years 2001-02 and 2002-03, only if three learning improvement days have been added to the 180-day contract year. If fewer than three days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be for activities related to improving student learning consistent with education reform implementation. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

{+ NEW SECTION. +} Sec. 504. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS

General Fund--State Appropriation (FY 2002). . . .	\$ 124,130,000
General Fund--State Appropriation (FY 2003). . . .	\$ 274,529,000
TOTAL APPROPRIATION	\$ 398,659,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$318,024,000 is provided for a cost of living adjustment for state formula staff units of 3.7 percent effective September 1, 2001, and another salary adjustment effective on September 1, 2002, in a percentage amount to be determined by the 2002 legislature consistent with the provisions of chapter 4, Laws of 2001 (Initiative Measure No. 732). The appropriations include associated incremental fringe benefit allocations at rates of 10.63 percent for school years 2001-02 and 2002-03 for certificated staff and 9.42 percent for school years 2001-02 and 2002-03 for classified staff.

(a) The appropriations in this section include the increased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act, in accordance with chapter 4, Laws of 2001 (Initiative Measure No. 732). Salary

adjustments for state employees in the office of superintendent of public instruction and the education reform program are provided in part VII of this act. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in section 502 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in section 502 of this act.

(b) The appropriations in this section provide cost-of-living and incremental fringe benefit allocations based on formula adjustments as follows:

	School Year	
	2001-02	2002-03
Pupil Transportation (per weighted pupil mile)	\$ 0.77	\$ 1.44
Highly Capable (per formula student)	\$ 8.75	\$ 16.35
Transitional Bilingual Education (per eligible bilingual student)	\$ 22.73	\$ 42.48
Learning Assistance (per entitlement unit)	\$ 11.23	\$ 20.99
Substitute Teacher (allocation per teacher, section 502(7))	\$ 18.29	\$ 34.18

(2) This act appropriates general fund--state funds for the purpose of providing the annual salary cost-of-living increase required by section 2, chapter 4, Laws of 2001 (Initiative Measure No. 732) for teachers and other school district employees in the state-funded salary base. For employees not included in the state-funded salary base, the annual salary cost-of-living increase may be provided by school districts from the federal funds appropriated in this act and local revenues, including the adjusted levy base as provided in RCW 84.52.053 and section 502 of this act, and state discretionary funds provided under this act.

(3) \$80,635,000 is provided for adjustments to insurance benefit allocations. The maintenance rate for insurance benefit allocations is \$427.73 per month for the 2001-02 and 2002-03 school years. The appropriations in this section provide for a rate increase to \$455.27 per month for the 2001-02 school year and \$493.59 per month for the 2002-03 school year at the following rates:

	School Year	
	2001-02	2002-03
Pupil Transportation (per weighted pupil mile)	\$ 0.25	\$ 0.60
Highly Capable (per formula student)	\$ 1.74	\$ 4.18
Transitional Bilingual Education (per eligible bilingual student)	\$ 4.46	\$ 10.66
Learning Assistance (per entitlement unit)	\$ 3.51	\$ 8.38

{+ NEW SECTION. +} Sec. 505. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR PUPIL TRANSPORTATION

General Fund--State Appropriation (FY 2002). . . .	193,198,000
General Fund--State Appropriation (FY 2003). . . .	194,293,000
TOTAL APPROPRIATION	387,491,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) A maximum of \$767,000 of this fiscal year 2002 appropriation and a maximum of \$785,000 of the fiscal year 2003 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) \$15,000 of the fiscal year 2002 appropriation and \$20,000 of the fiscal year 2003 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.

(4) Allocations for transportation of students shall be based on reimbursement rates of \$37.11 per weighted mile in the 2001-02 school year and \$37.38 per weighted mile in the 2002-03 school year exclusive of salary and benefit adjustments provided in section 504 of this act. Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

(1) \$3,000,000 of the general fund--state appropriation for fiscal year 2002 and \$3,000,000 of the general fund--state appropriation for fiscal year 2003 are provided for state matching money for federal child nutrition programs.

(2) \$100,000 of the general fund--state appropriation for fiscal year 2002 and \$100,000 of the 2003 fiscal year appropriation are provided for summer food programs for children in low-income areas.

{+ NEW SECTION. +} Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2002). . . .	419,264,000
General Fund--State Appropriation (FY 2003). . . .	420,644,000
General Fund--Federal Appropriation.	256,092,000

TOTAL APPROPRIATION \$ 1,096,000,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) Effective with the 2001-02 school year, the superintendent of public instruction shall change the S-275 personnel reporting system and all related accounting requirements to ensure that:

- (i) Special education students are basic education students first;
- (ii) As a class, special education students are entitled to the full basic education allocation; and
- (iii) Special education students are basic education students for the entire school day.

(b) Effective with the 2001-02 school year, the S-275 and accounting changes shall supercede any prior excess cost methodologies and shall be required of all school districts.

(3) Each general fund--state fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(5)(a) For the 2001-02 and 2002-03 school years, the superintendent shall distribute state funds to each district based on the sum of:

- (i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
- (ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW

28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment. For the 2001-02 and the 2002-03 school years, each district's funded enrollment percent shall be the lesser of the district's actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent for the 2001-02 school year or 13.0 percent for the 2002-03 school year.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be 12.7 percent for the 2001-02 school year and 13.0 percent for the 2002-03 school year, and shall be calculated

in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) A maximum of \$12,000,000 of the general fund--state appropriation for fiscal year 2002 and a maximum of \$10,623,000 of the general fund--state appropriation for fiscal year 2003 are provided as safety net funding for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. Safety net funding shall be awarded by the state safety net oversight committee.

(a) The safety net oversight committee shall first consider the needs of districts adversely affected by the 1995 change in the special education funding formula. Awards shall be based on the lesser of the amount required to maintain the 1994-95 state special education excess cost allocation to the school district in aggregate or on a dollar per funded student basis.

(b) The committee shall then consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding

formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) The superintendent may expend up to \$120,000 per year of the amounts provided in this subsection to provide staff assistance to the committee in analyzing applications for safety net funds received by the committee.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office

of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor;

(c) Staff of the office of the financial management; and

(d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) To the extent necessary, \$5,500,000 of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of one or more individual special education students. If safety net awards to meet the extraordinary needs exceed \$5,500,000 of the general fund--federal appropriation, the superintendent shall expend all available federal discretionary funds necessary to meet this need. General fund--state funds shall not be expended for this purpose.

(12) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(14) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(15) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services. The superintendent shall prepare an information database on laws, best practices, examples of programs, and recommended resources. The information may be disseminated in a variety of ways, including workshops and other staff development activities.

(16) A school district may carry over from one year to the next year up to 10 percent of general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.

{+ NEW SECTION. +} Sec. 901. EXPENDITURE AUTHORIZATIONS. The appropriations contained in this act are maximum expenditure authorizations. Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formal loan agreement shall be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 1999-01 biennium.

{+ NEW SECTION. +} Sec. 902. INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

- (a) System refurbishment, acquisitions, and development efforts;
- (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
- (c) Assessment of overall information processing performance, resources, and capabilities;
- (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
- (e) Progress toward enabling electronic access to public information.

(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information

technology capabilities on meeting service delivery demands.

(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Passed the Senate June 20, 2001.

Passed the House June 15, 2001.

Approved by the Governor June 26, 2001, with the exception of certain items that were vetoed.

Filed in Office of Secretary of State June 26, 2001.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 2; 123(3); 203(1)(s); 217(4); 302(15); 302(16); 302(17); 308(6); 402(5); 514(12)(a); 603(12); 710; 912 and 921 of Engrossed Substitute Senate Bill No. 6153 entitled:

"AN ACT Relating to fiscal matters;"

My reasons for vetoing these sections are as follows:

{+ Section 2, Page 2, Restrictions on Governor's Supplemental Budget +}
In the event of a projected cash deficit in the state General Fund, the Governor would have been directed to make across-the-board allotment reductions, and to recommend expenditures from the Emergency Reserve Fund before proposing any General Fund tax increases. This provision would have re-stated existing allotment authority, as well as limiting the executive's prerogative concerning its supplemental budget recommendations.

{+ Section 123(3), Page 16, Performance Audits (State Auditor) +}
This section would have directed the Office of State Auditor to conduct performance audits of three governmental entities as demonstration audits for state and local government agencies. The Joint Legislative Audit and Review Committee (JLARC) already has statutory responsibility for conducting performance audits. There is no compelling reason to duplicate JLARC functions within the Office of State Auditor.

Also, because of an apparent technical error, subsections (2) and (3) would have authorized expenditures from the state General Fund greater than the agency appropriation. With respect to subsection (2), it is my intent to pursue correction of this dollar amount in the 2002 supplemental budget.

{+ Section 203(1)(s), Page 44, Contracted Beds at Local County Detention Facilities (Department of Social and Health Services - Juvenile Rehabilitation Program) +}
This subsection would have affected the funding for the 33 contracted local county detention facilities and also directed the Department of Social and Health Services (DSHS) not to consider beds in those facilities to achieve reductions in bed capacity. The June 2001 forecast of the Caseload Forecast Council indicates that the juvenile rehabilitation residential population will be declining by approximately 60 beds, and this trend is expected to continue. By eliminating these contracted beds from consideration for reductions,

DSHS would have been hindered in its ability to effectively manage and utilize residential beds while providing the appropriate services to youths.

{+ Section 217(4), Page 72, Safety and Health Grants (Department of Labor and Industries) +}

This section attempted to prevent the Department of Labor and Industries from operating the safety and health grant program, unless separate legislation is passed that specifically authorizes expenditures for that program. However, the statutory authority for that program already exists and cannot be changed by an appropriations bill.

{+ Section 302(15), Page 86, Culvert Removal on Rocky Ford Creek (Department of Ecology) +}

This subsection would have required the Department of Ecology (DOE) to provide \$50,000 to a local conservation district in Moses Lake for a culvert removal project on Rocky Ford Creek. I support on-the-ground efforts to address flooding and fish barrier problems, and funding for this type of project is available from several existing grant and loan programs through the Salmon Recovery Funding Board, DOE, and the Public Works Trust Board.

{+ Section 302(16), Page 86, Washington Watershed, Science, and Technology Program (Department of Ecology) +}

This subsection would have required DOE to provide \$300,000 to the State Conservation Commission to establish the Washington Watershed, Science, and Technology Program. This program would have provided technical assistance to private landowners in conducting water quality monitoring, riparian vegetation management, and noxious weed control. Although I support the goal of this proviso, the creation of a new technical assistance program for these items is unnecessary since the Conservation Commission, DOE, and the Department of Fish and Wildlife already provide such assistance.

{+ Section 302(17), Pages 86-87, Palouse Conservation District Pilot Project (Department of Ecology) +}

The subsection would have required DOE to provide \$75,000 to a conservation district in the Palouse region for a pilot project to evaluate the ability of existing voluntary and regulatory programs to improve water quality. Funding for this project is available, and has already been applied for, from the Centennial Clean Water Fund.

{+ Section 308(6), Page 97, Trust Land Roads Nonappropriated Account (Department of Natural Resources) +}

This subsection would have restricted the appropriation of a nonappropriated account. Since there is not an appropriation from this account, the proviso is not binding and should not be included in the appropriations bill.

{+ Section 402(5), Page 103, Mobilization of State Fire Service Resources Study (Washington State Patrol) +}

This proviso would have required the Washington State Patrol, in consultation with various local and state fire service entities, to conduct a study of the fire mobilization plan and procedures. The study was to include an analysis of the cost effectiveness and efficiency of the fire service mobilization plan. However, no funds

were provided to the Patrol for this activity. I will direct the Patrol to examine, to the extent possible within existing resources, the fire mobilization plan and to make timely recommendations for improvements.

{+ Section 514(12)(a), Page 137, National Board for Professional Teaching Standards Bonus (Superintendent of Public Instruction - Education Reform) +}

Section 514(12) provides funding for bonuses for teachers who attain certification by the National Board for Professional Teaching Standards (NBPTS). The Legislature extended the length of the bonus from two to three years, but subsection (a) would have resulted in ten teachers losing their third year bonus payment because they achieved NBPTS certification before the 1999-00 school year. Sufficient funds are provided in the fiscal year 2002 budget to make the third bonus payment to these outstanding teachers - who were the first in this state to pursue and obtain NBPTS certification. Therefore, I have vetoed Section 514(12)(a) and request that the Superintendent of Public Instruction make an annual bonus payment of \$3,500 to every teacher who attained NBPTS certification before or during the 2001-02 school year.

This veto makes a technical correction to allow the full implementation of the three-year bonus limit adopted by the Legislature. Next session, I will again ask the Legislature to provide funding for bonus payments to teachers for each year in which their certification by the NBPTS is maintained.

{+ Section 603(12), Page 152, Fee for Adult Basic Education Courses (State Board for Community and Technical Colleges) +}

The purpose of adult basic education is to provide adults the basic knowledge and skills that are normally acquired from kindergarten through 12th grade. Therefore, it has been the policy of the state to pay for this education. Before we ask students to pay for a portion of this education, there should be a public discussion about changing the current policy.

I am asking the State Board for Community and Technical Colleges to review their adult basic education programs and recommend changes to our policy that will improve this program, including any alterations in the way this program should be funded.

{+ Section 710, Pages 169-170, Distribution of Excess Funds from the Forest Development Account (Department of Natural Resources) +}
Distribution of forest management funds to counties at this time is not in the best interest of the long-term health of the account or the long-term management of the resources on Forest Board lands. Prior transfers from this account have depleted the available balance. In addition, the Department of Natural Resources' June revenue forecast projects an \$8.8 million decrease in revenue for the Forest Development Account.

{+ Section 912, Pages 202-203, Forest Development Account Distribution of Fund Balance (Department of Natural Resources) +}

This section would have provided statutory authorization during the 2001-03 Biennium to distribute Forest Development Account funds as directed in section 710. Since section 710 has been vetoed, section

912 is unnecessary.

{+ Section 921, Pages 210-212, Parks and Recreation Fees (Washington State Parks and Recreation Commission) +}

This section would have temporarily limited the statutory authority allowing the Washington State Parks and Recreation Commission to charge fees for basic parkland access. The revenue from such fees can be used to provide desperately needed maintenance to park facilities. Currently, the parks system has a \$40 million maintenance backlog in addition to a \$292 million ten-year capital facilities funding need. I have in the past supported, and continue to believe it is important, that we preserve the Commission's ability to implement fees as it deems appropriate.

For these reasons, I have vetoed sections 2; 123(3); 203(1)(s); 217(4); 302(15); 302(16); 302(17); 308(6); 402(5); 514(12)(a); 603(12); 710; 912 and 921 of Engrossed Substitute Senate Bill No. 6153.

With the exception of sections 2; 123(3); 203(1)(s); 217(4); 302(15); 302(16); 302(17); 308(6); 402(5); 514(12)(a); 603(12); 710; 912 and 921, Engrossed Substitute Senate Bill No. 6153 is approved."
